PROFESSIONAL

FlashMEM è una linea di caricabatterie alimentatori **professionali** performanti, di dimensioni compatte e di alta qualità. Utilizzati quotidianamente da officine, elettrauto, concessionarie auto prevalentemente per la carica e l'alimentazione dei veicoli durante tutte le fasi di riprogrammazione e autodiagnosi.

Flashmen is a line of professional power supplies battery chargers with high performance, compact size and high quality.

They are used by garages, car electrician, car dealerships mainly for charge and supply vehicles during all stages of reprogramming, flashing and car diagnosis.

- Totamente protetto contro:**
- Inversione di polarità
 - Corto circuito
 - Voltaggio errato
 - Sovraccarico

- Fully Safe System:**
- Reverse polarity
 - Short circuit
 - Voltage error
 - Overload

Microprocessing
CPU controller

120Amp
continui
continuous

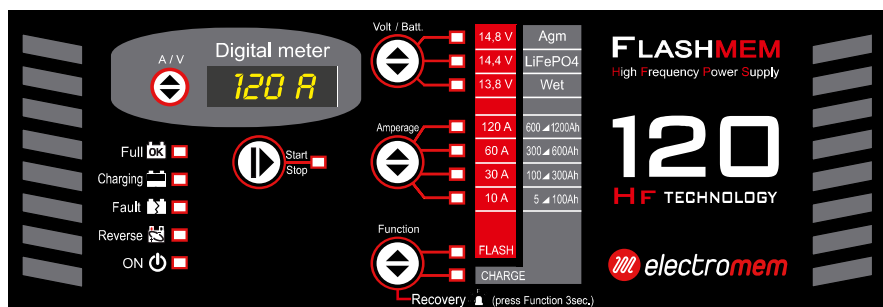

Ideale per riprogrammazioni
Ideal for flashing
PASS THRU

Pinze professionali in **Ottone**
Professional **Brass** clamps

Cavi standard / Standard cables: 25mm² - L. 2,7m
Cavi opzionali / Optinal cables: 25mm² - L. 6m
