Giga Station 120Plus

è la più innovativa **Stazione di Carica Multifunzione** studiata per l'autofficina moderna. Risolve definitivamente il problema della ricarica e avviamento degli autoveicoli dotati di sofisticate centraline elettroniche. Fondamentale durante la riprogrammazione e diagnosi che può essere eseguita in totale sicurezza. Sviluppata dai nostri ingegneri, completamente prodotta in Italia secondo le vigenti normative europee.

It is the most innovative Multifunctional Charging Station designed for the modern workshop. It definitively solves the problem of recharging and starting of ultimate vehicles equipped with sophisticated electronic control units. Ideal during reprogramming and diagnosis that can be performed in total safety. Developed by our engineers, completely produced in Italy according to the current european rules.
